

Bicycle Alliance Mission Statement

The Bicycle Alliance advocates for bicyclists and a bike-friendly Washington.

We do this in the following ways:

- Advocate for adequate funding for a complete non-motorized transportation infrastructure.
- Provide Washington residents a statewide clearinghouse for bicycle education and advocacy.
- Work to increase percentage of all types of bicycle ridership in Washington.
- Ensure that bicycles are recognized as a reasonable and mainstream transportation option.
- Educate communities in Washington to become bicycle-friendly and embrace a Share the Road philosophy.

Bicycle Alliance members believe that bicycling in Washington is inexpensive, healthy and fun, and that bicycles are a viable transportation alternative.
